EXAMINER INTERVIEW SUMMARY RECORD

All participants (applicant, applicant's representative, PTO personnel):

(1) ROBIN TESKIN (3) _____
(2) MR BERSTEIN (4) _____

Date of interview 3-28-89

Type: ☒ Telephonic ☐ Personal (copy is given to ☐ applicant ☐ applicant's representative).

Exhibit shown or demonstration conducted: ☒ Yes ☐ No. If yes, brief description: a copy of proposed
changes to claims

Agreement ☒ was reached with respect to some or all of the claims in question. ☐ was not reached.

Claims discussed: All pending claims

Identification of prior art discussed: All the art of record.

Description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicant agreed to amend claims so that they did not encompass "minimal" changes in the Factor VIII-C protein and DNA. The claims were limited to changes encompassing at least 581 amino acids (and corresponding DNA) which has basis from the examples. It is deletions of this magnitude which have been established to result in unexpectedly high levels of expression of the Factor VIII-C protein.

(A fuller description, if necessary, and a copy of the amendments, if available, which the examiner agreed would render the claims allowable must be attached. Also, where no copy of the amendments which would render the claims allowable is available, a summary thereof must be attached.)

Unless the paragraphs below have been checked to indicate to the contrary, A FORMAL WRITTEN RESPONSE TO THE LAST OFFICE ACTION IS NOT WAIVED AND MUST INCLUDE THE SUBSTANCE OF THE INTERVIEW (e.g., items 1-7 on the reverse side of this form). If a response to the last Office action has already been filed, then applicant is given one month from this interview date to provide a statement of the substance of the interview.

☐ It is not necessary for applicant to provide a separate record of the substance of the interview.

☒ Since the examiner's interview summary above (including any attachments) reflects a complete response to each of the objections, rejections and requirements that may be present in the last Office action, and since the claims are now allowable, this completed form is considered to fulfill the response requirements of the last Office action.

Identification of prior art discussed: All the art of record.

Description of the general nature of what was agreed to if an agreement was reached, or any other comments: The prior art was discussed, and it was agreed that it was not predictable that such large deletions in the factor VIII-C protein would enable proper processing of the protein, and result in an active procoagulant upon expression. A declaration as to additional deposits of cells used for expression (CHO cells) is to be submitted. S
